Hyacinths—The Flower Always associated With Holland.

Select Hyacinths

The flower that everyone associates with Holland, and which always recalls the old windmills and canals of the Netherlands. They are the pride of all outdoor gardens, and may be grown indoors with ease during the winter. The flowers are closely set on long spikes, making a very graceful appearance. They are very sweet scented, fine texture, with delicate colorings to the brightest of bright.

10 L'Innocence. Pure white, early and a good forcer. It makes an excellent display when grown in beds, but is also used for growing in pots or in water in the house. It is of elegant form and the best of all whites.

11 Lady Derby. Bright rose pink, really a beautiful hyacinth with very fine long strong spikes. When grown outdoors makes a wonderful appearance, and is excellent for pot culture.

12 King of the Blues. As the name implies, is the best of all dark blues. The flower spikes are long with heavy-set dark blue bells, making a good display when grown in the open; a very excellent late forcing variety.

13 La Victoire. Brilliant deep red, when grown in the open; an excellent variety for bedding, because the flowers are carried on strong stems with good height, which will stand poor weather conditions. It comes into bloom with the early hyacinths. Very easy to force, and is little lighter in shade when grown under glass.

14 Yellow Hammer. Golden yellow, blooms very early, and is one of the best for pot culture. The spikes are very large and set thickly with golden yellow bells. Yellow Hammer is a very dependable variety.

15 Enchantress. Porcelain blue tinted lilac with light center. The flower spike is long and well filled, making a handsome hyacinth. An early bloomer, fine for forcing and a good bedder.
